

LE GROUPE **PNF** INC.

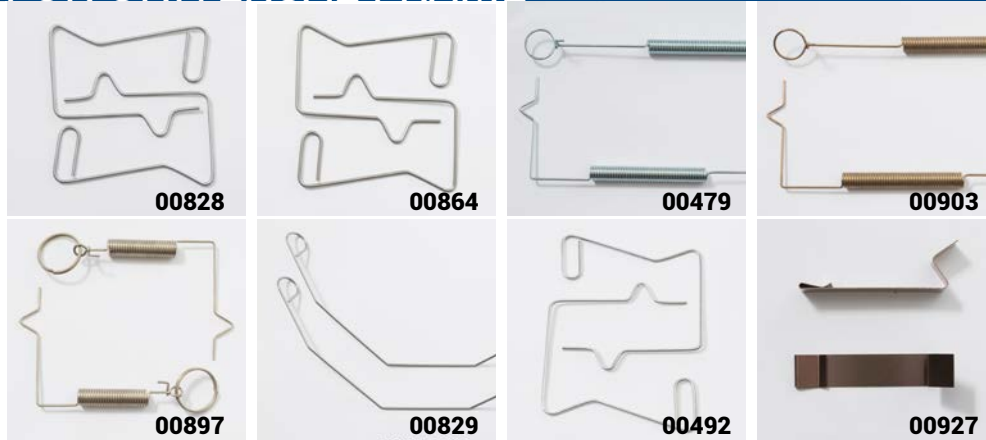

DEPUIS • SINCE 1995

RETENTION SPRINGS

FOR UNIVERSAL FRAME

Groupe P.N.F. Inc. offers clips for securing filters in varying combinations. The clips are attached to one of two sets of embossing on the inside frame of the support frame. Simply attach the appropriate clip that best matches the depth of the filter or the combination of filters selected. It is recommended that you use 4 clips per support frame.
