# PAD HOLDING FRAME

**Economical  
Practical**

**Groupe P.N.F. Inc.** manufactures a range of steel and stainless steel pad holding frames, in varying thicknesses, in standard or custom sizes.

## PRIMARY USES

- Commercial buildings
- Schools and universities

**STRONGER FRAME MODEL**  
Available with welded grid,  
on request. Learn more.

## CHARACTERISTICS

- Designed to fit any type of replacement media
- Galvanized steel "U" channel
- Stainless steel "U" channel
- Available in 26 gauge and other thicknesses;
- Thicknesses of 3/4 in, 1 3/4 in, 3 1/2 in as well as non-standard thicknesses available

## ADVANTAGES

- More economical than a disposable filter (The cost of the frame is quickly recouped after just a few replacements of the filter element.)
- Quick and easy replacement of the filter element
