

LE GROUPE **PNF** INC.

DEPUIS • SINCE 1995

POLYURETHANE FOAM FILTER

Good dust filtering capacity and low air resistance

Groupe P.N.F. Inc. manufactures a full range of polyurethane foam filters, in varying construction and thicknesses, in standard or custom sizes.

PRIMARY USES

- Ventilation systems
- Heating systems
- Air-conditioning systems
- Dehumidifiers
- Air intakes
- And many others

CHARACTERISTICS

- Possible combination of materials (aluminum mesh, steel mesh, electrostatic membrane, activated carbon, etc.)
- Available in different densities (PPI), thicknesses
- Available with or without aluminum or steel frame
- Available in sheets, precut pieces and rolls
- Washable in warm water

ADVANTAGES

- Soundproof
- Excellent impurities retention rate
- Easy maintenance
- Excellent durability
- Low resistance
- UL and ULC listed
